Chapter 1 by Tailors <3

"Pull over now!" The boy pulled over slowly. Despite being tailed by the cops he still had a smile plastered on his face. "Exit the car with your hands on your head!" The boy took his pocket watch out of his pocket and held it in his hand as he stepped out of the car with his hands in the air. I followed his example my pocket watch in my hand. How did I get into this situation?

~~~~~

It had been 1pm precisely. I was never late. I make a point to be on time. I had taken a seat and wait for the boy. Well, the boy that asked me out yesterday. I don't even know his name. He refused to tell me. All he'd said was: "I need you to meet me on 12 main street at 1pm." I didn't go because he blackmailed me. He had simply walked away after that. I was only here because curiosity had gotten the best of me.

He had arrived simply seconds after me. He had carried a large box. He was quite a good looking boy. Black hair tinged with steel blue. Deep blue eyes. Well, eye. He had an eye patch covering his left eye. He had sat down and began looking at one of the menu's on the table.

"Why did you need to see me?" He had looked me straight in the eyes and said, "Just watch."

He had taken out a small pocket watch and pressed one of the two buttons on the side. Time froze. Literally. The attention of everyone in the room froze. The cars pouring froze. The cars out the window froze. The boy had stood and said, "Now I must change out of these modern clothes. I feel like a freak." He had walked into the bathrooms then. I was alone.

When he had come out again he looked incredible. He was wearing black stockings with white thigh-high boots. A tightly fitted corset wrapped comfortably around him and he wore a half skirt with black blue and white ruffles. On his head he wore a small top hat with roses that spilled out from underneath it. A black lace veil fell off the edge of the hat going down to his knees. I couldn't help but stare. He came back to the table and sat back down. He'd given the box to me and told me to change into the clothes in the box. I'd done so. The outfit was similar to but it was pink and more ladylike.

When I'd walked out of the bathroom and back into the diner the boy had been counting out money and placing it on the front counter. When he had seen me he'd motioned for me to follow him and walked outside. When I got outside he'd already opened a car door of a car that was frozen from driving. He'd pulled out the driver and gotten inside the car. "You coming?" He'd said.

As I'd gotten in the car time started up again. I'd seen the man that was in the car stand and swear. I'd seen the boy slam on the accelerator. I'd also seen the cops turn around the corner onto Main Street. As we sped away I'd seen the cops follow. Then the boy gave me a pocket watch.

~~~~~

We stood with our hands in the air. The police had guns. The boy had a stopwatch. "The left button slows down time, the right button stops it completely" He whispered to me. "Now go..."

I had no idea what to do. Pause time? Slow it down? I wasn't just about to pause time just because this mysterious boy told me to. At least that's what I thought until I looked into his eyes.
